    D#       C#       G#
    G#       A#m
    D#       C#       G#

[Verse]
    G#                   A#m
The man in me will do nearly any task,
    D#             C#                                  G#
And as for compensation, there's little he would ask.
       G#
Take a woman like you
        C#                     G#
To get through to the man in me.

    G#                     A#m
Storm clouds are raging all around my door,
    D#               C#                       G#
I think to myself I might not take it any more.
       G#
Take a woman like your kind
   C#               G#
To find the man in me.

[Chorus]
     A#m                     G#
But, oh, what a wonderful feeling
A#m                            G#
  Just to know that you are near,
```

```
A#m                  G#
  Sets my a heart a-reeling
        A#m          D#
From my toes up to my ears.

[Verse]
    G#                              A#m
The man in me will hide sometimes to keep from bein' seen,
    D#                      C#                                  G#
But that's just because he doesn't want to turn into some machine.
       G#
Took a woman like you
   C#                           G#
To get through to the man in me.
